How about, like, Re-Animator, Bride of Chucky, or Rocky Horror Picture Show?
Nah. That one's not even scary.
Don't you have anything that's not a cult of B-Movie?
Not likely.
Oh! What about the first Paranormal activity!
EW! NO! You know I can't do ghosts and shit!
C'mon, Jed! Nothing you like is scary!
Well-
What SCARES you, then, Jonesy?!
Hmm...
Probably the endless and unfathomable expansion of the universe.
How we're so small - Just specks in a cosmic void.
And yet we're so capable of complexity.
Everything is both terrifyingly endless and painfully finite.
How 'bout you?
Uhh, maybe, like, the fact that we're animals who care deeply in an impartial universe and that no matter how precious and fragile life itself is, we seemingly can't help but destroy the only home we will ever truly be a part of.
And, like, y'know
Student loans and shit.
HA!
Felt.
Wanna watch Barbie™ as Rapunzel?
Yeah, Sure.

LET'S EAT!
